

Dear Hiring Manager,

I am writing to express my strong interest in the Intern position within your group that assists customers with fleet health management, device failure prediction, and security optimization. With my background in C and Python development, as well as my experience with CI/CD pipelines and containerization, I believe I would be a valuable asset to your team.

My technical skills align closely with your requirements:

- Proficiency in C, and Python programming
- Experience designing and implementing CI/CD pipelines using Terraform
- Strong knowledge of Linux/Unix systems
- Practical experience with version control systems, particularly Git and GitHub workflows

I am particularly excited about the opportunity to collaborate on a variety of projects, from feature development to optimization. My background in test automation and ability to quickly learn new tools and technologies would allow me to contribute effectively to your team's diverse initiatives.

The dynamic work environment you describe at your Pune site is very appealing to me. I appreciate the emphasis on both cutting-edge technical work and personal development opportunities. The on-site amenities, cultural events, and community engagement align well with my values and would contribute to a fulfilling work experience.

I am eager to bring my skills and enthusiasm to your team, contributing to the important work of keeping your fleet healthy and enhancing customer satisfaction. I look forward to the opportunity to discuss how my experience and abilities can benefit your organization.

Thank you for your consideration. I am excited about the possibility of joining your team in Pune.

Sincerely,

Malineni Ajay Kumar
